

Latin Curriculum Key Stage 5

Intent:

Latin is a multifaceted subject, which explores the Roman world through its language, literature and history. In doing so it gives students a deeper foundation in their own history and culture, much of which derives from the three centuries Britain spent as part of the Roman Empire. The depth to which Latin grammar is studied helps students to understand English and other languages, and the analytical skills learnt in Latin give students practice in high-level problem-solving, which is helpful in all areas of adult life. Learning is the heart of our business and we work collaboratively to achieve shared goals, in support of Christ the King College's distinct Christian ethos. The study of Latin also assists students in their contemplation of the school motto 'via, veritas, vita.'

Curriculum Outline Key Stage 5

Year 12

- Latin Language: Grammar and Prose
- Translation
- Latin Literature: Cicero and Virgil
- Translation
- Latin Language: Ovid + Livy

Year 13

- Latin Language: Ovid + Livy
- Latin Literature: Cicero and Virgil
- Revision
